STANDARDS

Product 448 - 010 - 3 - 10;

DESIGN

- Miniaturized construction down to AWG44 conductor size
- Easy identification of coax units by color code
- Spiral shield using microwires down to AWG56
- Bundles with identification thread
- Bio - compatible and sterilizable materials

Cable properties

- Very flexible
- Good performance for dynamic application with flexion and torsion
- Cosmetic adaptability
- High resistance against electromagnetic disturbances
- High transmission and electrical performances

Production

Reliable quality process with 100% control in line and off line.

ISO13485 certification

For more information, please contact - us

Cable flexibility
Flexible

85 ° C

Minimum operating temperature
- 30 ° C

RoHS compliant
Yes

CHARACTERISTICS

Approximate weight	53 g/m
	1.5 mm
Operating voltage	24 V
Cable flexibility	Flexible
	85 ° C
Minimum operating temperature	- 30 ° C
RoHS compliant	Yes
